The Staffing Crisis

MARKET INEFFICIENCY

Annual NHS Agency Spend

£3.8bn

Wasted on inefficient agency fees & premiums

 Despite this spending, shift fill rates remain critically low due to outdated processes.

PROCESS

60%

MANUAL WORKFLOWS

Reliance on phone calls, spreadsheets, and paper rotas creates bottlenecks.

SPEED

4+ Hrs

TO FILL A SHIFT

Critical time lost filling short-notice vacancies, leading to understaffing.

 Real-World Consequences

Missed Coverage

Patient care quality suffers when ratios aren't met.

Elevated Costs

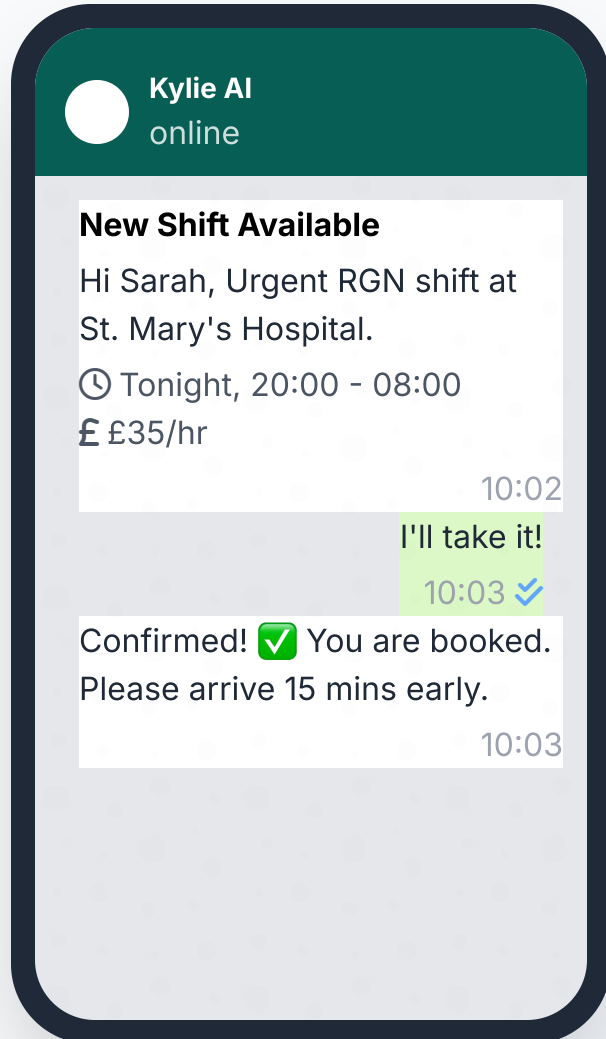

Panic buying agency staff at premium emergency rates.

Staff Churn

Admin burnout from constant chasing and manual coordination.

Kylie AI on WhatsApp

15-Minute Fill Time

Kylie AI matches staff instantly based on skills, availability, and location. Shifts are filled 95% faster than manual agencies.

15
MINS

No-Login Platform

Zero friction. Staff use the app they already love. No downloads, no forgotten passwords.

Self-Healing Shifts

If a staff member cancels, Kylie automatically reposts to the waitlist to backfill instantly.

GPS Geofencing

Automated check-in/out verification ensures staff are on-site before payment is authorized.

Compliance Engine

Built-in document expiry checks. Kylie won't book staff with expired training or DBS checks.

1

Post Shift

- Manager inputs role, time, and rate details.
- System auto-checks budget and compliance rules.
- Instant eligibility filtering for candidate pool.

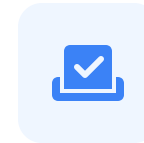

2

Notify Staff

- Kylie AI broadcasts opportunities via WhatsApp.
- Smart routing prioritizes preferred & highest-rated staff.
- No app download required for recipients.

3

Auto-fill & Confirm

- First qualified acceptance triggers instant booking.
- Rota is updated in real-time for all managers.
- GPS geofencing activates for check-in verification.

Traction & Milestones

Dominion Healthcare Services

 LIVE since Dec 2025

A leading regional healthcare provider struggling with manual shift coordination has become our primary beta partner, validating the core platform utility.

"Before ACG StaffLink, we spent hours calling staff. Now shifts fill themselves in minutes. It's transformed our operations."

Competitive Advantage

**ADOPTION BARRIER**

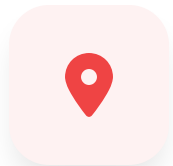

No-Login Moat

While competitors force staff to download yet another app, we live where 98% of users already are. Zero friction adoption creates sticky, instant liquidity.

**TECHNOLOGY**

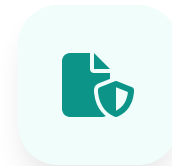

Intelligent Matching

Our matching engine doesn't just broadcast; it predicts. By learning staff preferences and reliability scores, we reduce fill times from hours to minutes.

**OPERATIONS**

GPS Verification

Real-time geofencing prevents fraud and billing disputes. Automated clock-in/out linked to GPS coordinates ensures 100% accurate timesheets.

**REGULATION**

Built-in Compliance

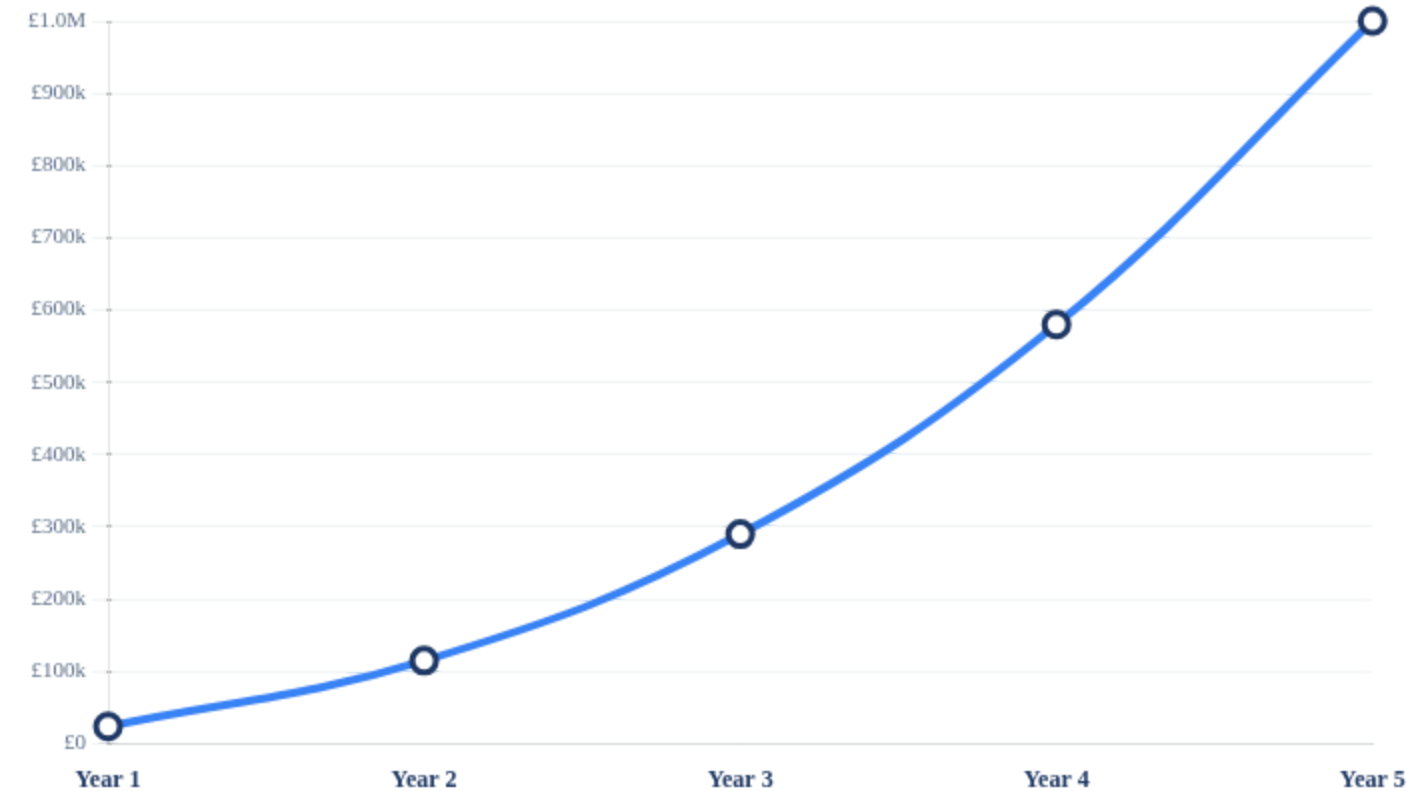

Healthcare-ready architecture manages DBS checks, training expiry, and right-to-work documents automatically, reducing legal risk for agencies.
